GET THE LATEST INLINE STORE DELIVERY DATA

1. Open SAP Query Manager

Path: SAP > Query Manager > Customized Query Reports for MIS > Inline Store Delivery

2. Copy the entire result table.

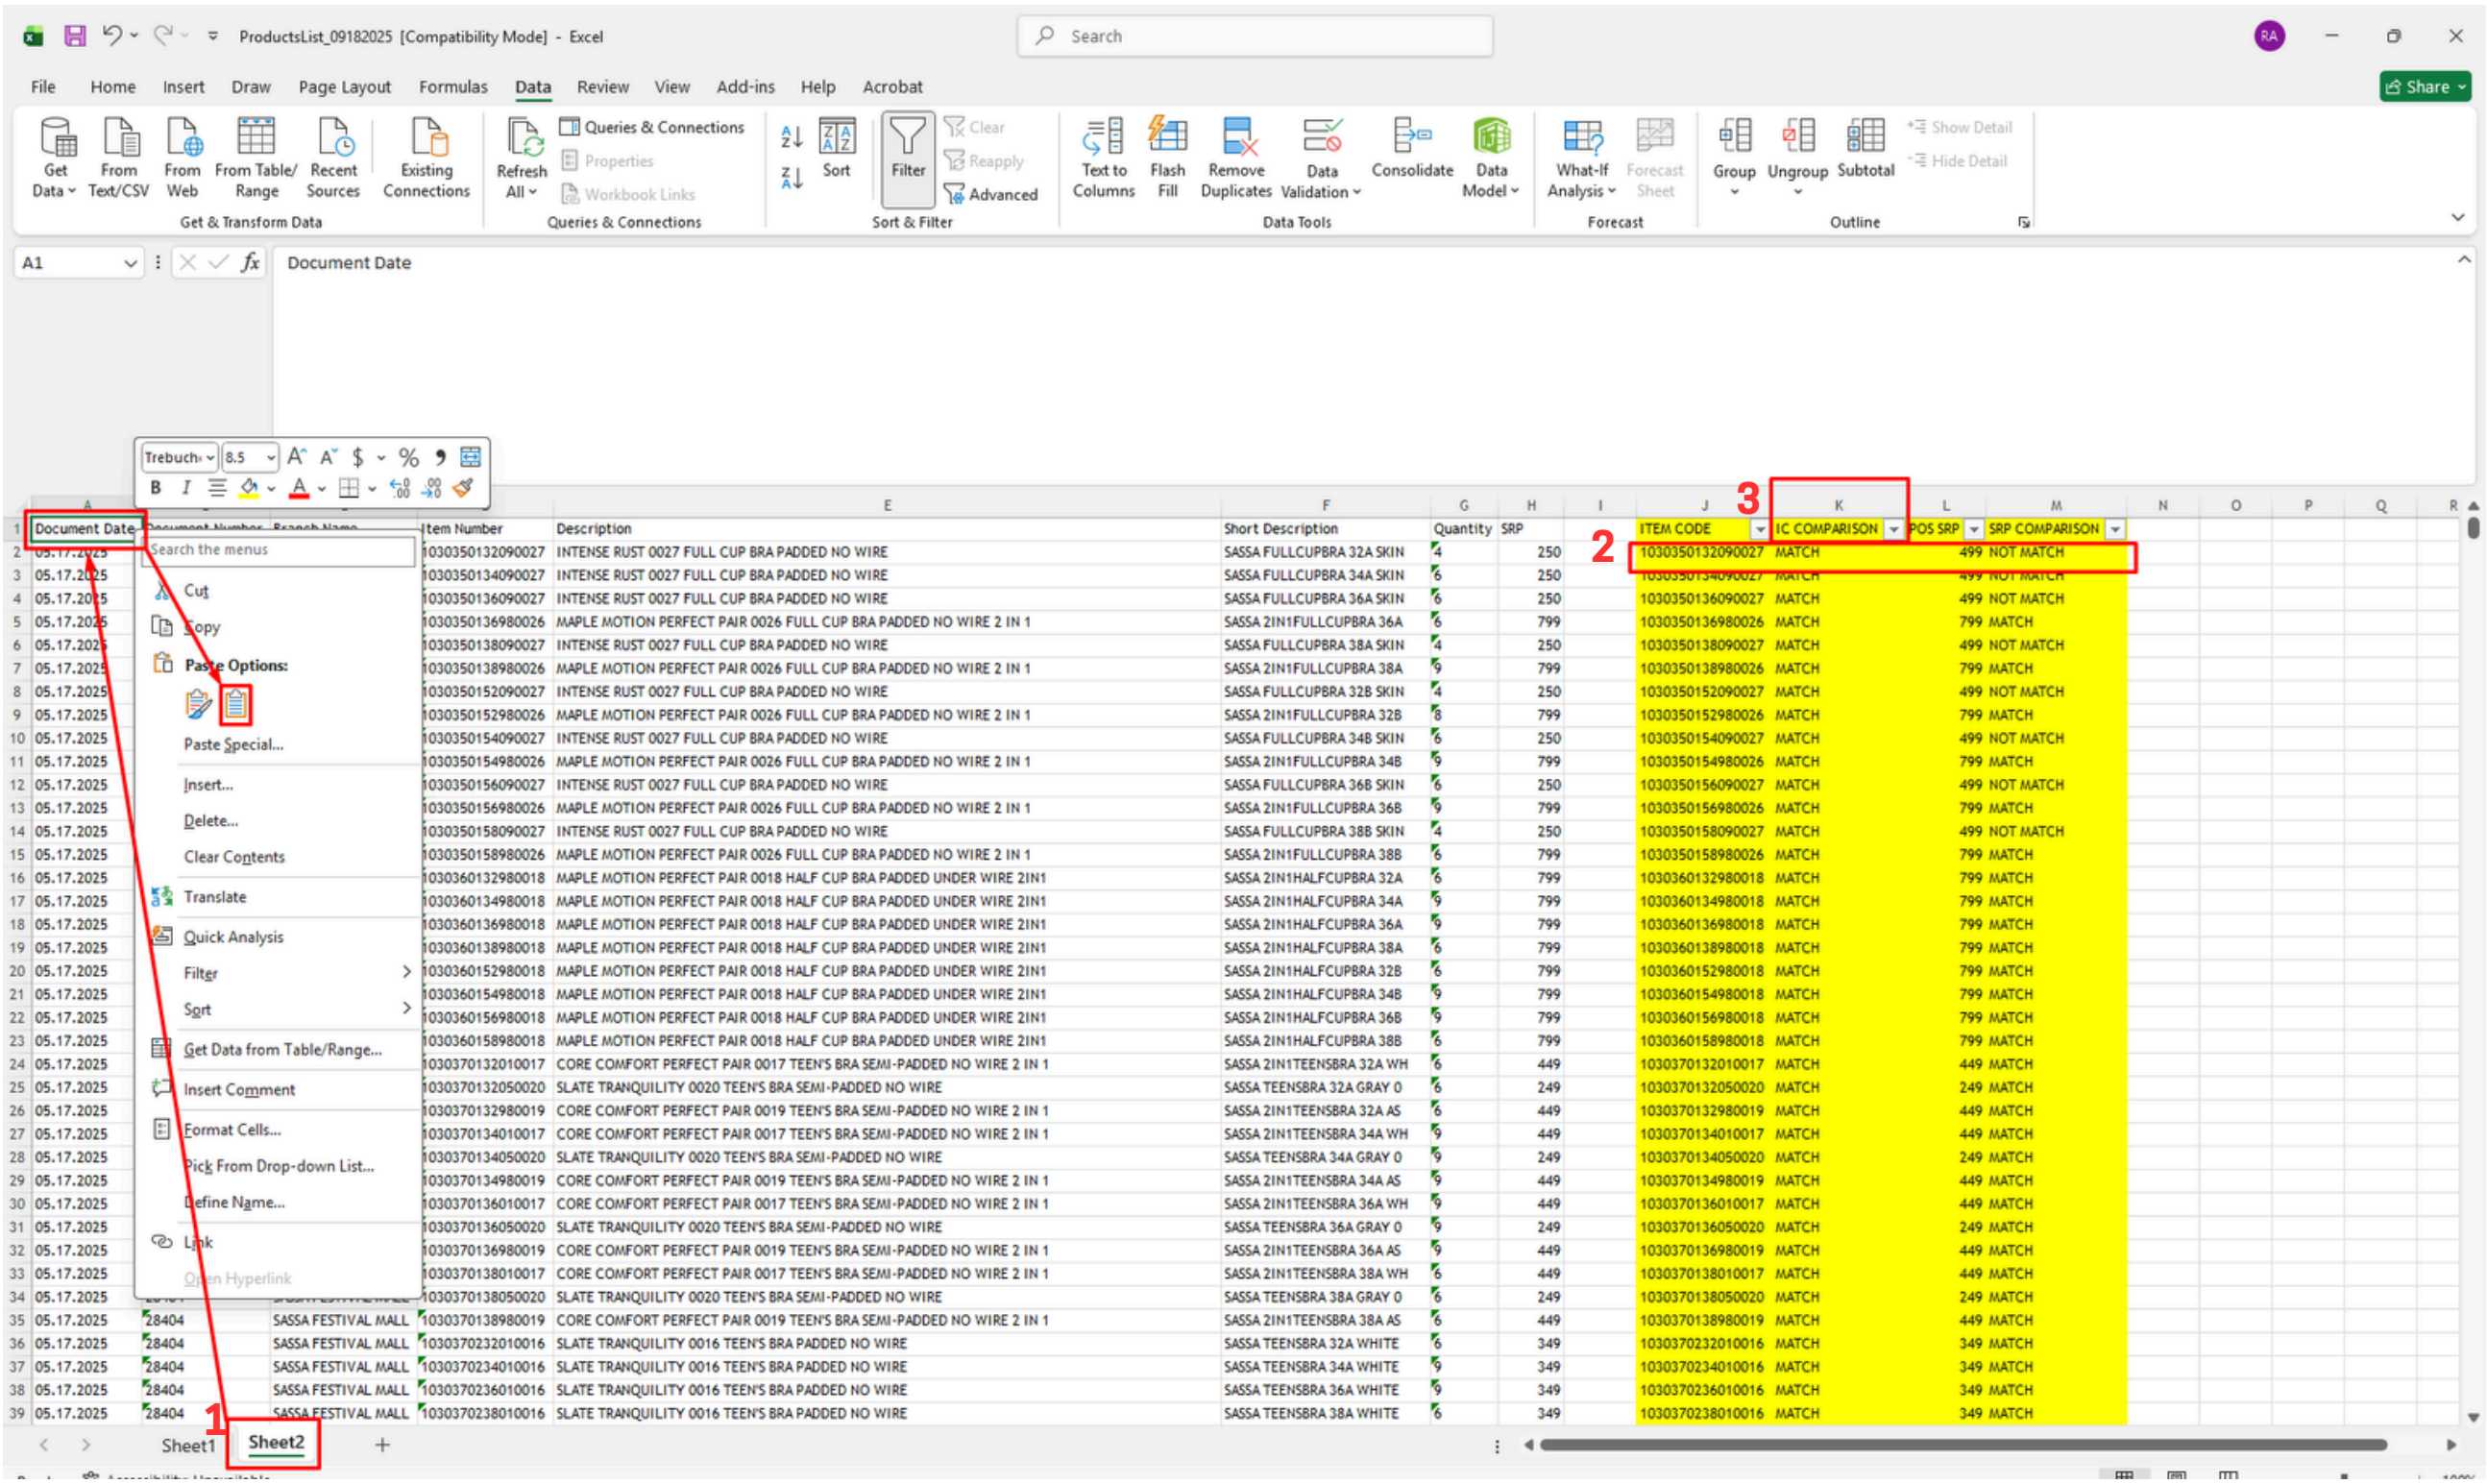

The screenshot shows the SAP Query Manager interface. The left sidebar contains a 'Main Menu' with categories like Administration, Financials, CRM, Sales, Purchasing, Business Partners, Banking, Inventory, Production, MRP, Service, and Reports. The 'Reports' category is expanded, showing 'Customized Query Report by MIS' and 'Inline Store Delivery'. The 'Inline Store Delivery' report is selected, and its details are shown in the main pane. A red arrow points from the 'Copy Table' option in the context menu to the 'Inline Store Delivery' report name in the sidebar.

The 'Inline Store Delivery' report is displayed in a table with the following columns: #, Branch Name, Item Number, Description, and Short Des... The table contains 21 rows of data, including item numbers and descriptions. A context menu is open over the table, with the 'Copy Table' option highlighted. The menu also includes options like Copy, Maximize/Restore Grid, Rename, Edit, Remove, Close, Filter Table, and Sort Table.

PREPARE THE ITEM MASTER DATA FILE

- 1. Paste the copied table into the Item Master Data File, Sheet 2.
 - 2. In Sheet 2, copy the formulas in J2, K2, L2, and M2 down to the last row of data.
 - 3. Filter the calculated results to “Not Match” (from your K column).
- Meaning: these are items not yet in the POS.

BUILD THE UPLOAD FILE

1.From Sheet 2 of the Item Master Data File, copy:

Item Number → paste into Upload File → Product Barcode

Short Description → paste into Upload File → Description

2.In the Upload File, copy Product Barcode into ProductCode (so they match).
